ERA TSI Open Days Workshops are renowned for addressing complex technical and strategic subjects that stakeholders across the sector wish to explore in greater depth.

The CCS TSI & ERTMS Open Days Workshop in Prague 2026 will open on the morning of 20 January with an exclusive high-level panel offering a strategic overview of ERTMS implementation at EU and national level. This session will be jointly moderated by ACRI, ERA, and UNIFE.

This opening panel will be followed by a focused, hands-on TSI Workshop on Control Command and Signalling (CCS). Over the past years, this format has garnered significant recognition, consistently drawing strong engagement from the railway community.

To conclude the event, a technical visit is planned for the afternoon of 21 January, further details will be provided in due course.
