

Moving Europe towards a sustainable and safe railway system without frontiers.

Safety Leadership Training

VDV, Kamekestraße 37 - 39, 50672 Köln, Germany

OBJECTIVES

The main objective of the course is to make rail managers and professionals aware of the importance of safety leadership.

The training course emphasises the need to put safety at the forefront of daily actions, in every decision made.

After the course, each participant should have a clear idea of what safety leadership is about and on how to improve.

METHODS

The 1-day training session has a modular structure.

The background is the film “Between the lines” which describes the circumstances of an accident and provides lessons to be learned.

The following training tools are used during the course:

- *Presentations with supporting materials, illustrated with real-life cases;*
- *Interactive dialogue between the participants and group work sessions guided by the facilitators;*
- *Practical role-play to foster the adoption of the concepts.*
