Participating EU Agencies and Joint Undertakings, hereinafter referred to as 'Agencies',

Having regard:

- To the Staff Regulations of Officials (hereinafter the 'Staff Regulations') and Conditions of Employment of other servants of the European Union (hereinafter the 'CEOS'), laid down by Council Regulation (EEC, EURATOM, ECSB) No 259/68¹, as amended by the Regulation (EU, EURATOM) No 1023/2013 of the European Parliament and of the Council of 22 October 2013², in particular Articles 2(f) and 12, and 3a and 82 of the CEOS,

⁴ [Strategy for the EU Agencies network \(2021-2027\)](#)

1. INTRODUCTION

The participating Agencies agree to cooperate in sharing their reserve lists to meet staffing needs more effectively and efficiently, while respecting the principles of transparency, access to information and equal treatment.

This Memorandum of Understanding (hereinafter 'MoU') establishes a common framework for this cooperation. It defines the principles and the procedure for a secure and efficient shared use of reserve lists of suitable candidates resulting from selection procedures run by the participating Agencies.

This framework aims to:

- Facilitate recruitment by leveraging reserve lists established by the Agencies,
- Promote efficiency by reducing the overall timelines of recruitment and selection procedures and associated costs,
- Ensure access for the Agencies to a broader pool of candidates from diverse geographic locations,
- Foster cooperation among the Agencies, maximizing synergies and avoiding duplication of effort for common job profiles,
- Increase the attractiveness of Agencies as employers of choice, potentially increasing the number of candidates applying for posts published by the Agencies,
- Ensure a transparent and unified approach when sharing reserve lists.

2. PURPOSE

The purpose of this MoU is to:

- Streamline and unify the process for sharing reserve lists of suitable candidates among the Agencies,
- Guarantee the secure and confidential exchange of reserve lists between the Agencies,
- Ensure transparency of the process and fair and equal opportunities for candidates.

3. SCOPE

This MoU is applicable for using reserve lists of suitable candidates resulting from vacancy notices for temporary staff engaged under Article 2(f) of the CEOS and of contract staff engaged under the terms of Article 3a of the CEOS.

Only reserve lists resulting from vacancy notices fully meeting the provisions set in this MoU can be shared.

4. DEFINITIONS

Participating Agency: Any Agency that has signed this MoU and agrees to abide by the terms and conditions set forth therein for the purpose of sharing reserve lists.

Leading Agency: From the participating Agencies, the Agency that has organised a specific selection procedure and intends to share the resulting reserve list of suitable candidates.

Receiving Agency: From the participating Agencies, the Agency that is interested in using a specific shared reserve list to meet its recruitment needs.

Shared reserve list: An established list of suitable candidates that is made available for use by the other participating Agencies, and about which information is published in the designated IT tool.

IT tool: The common IT platform hosted by the SSO, which has been developed taking into account the principle of privacy-by-design, that facilitates the exchange of information about shared reserve lists among participating Agencies

Shared Support Office (SSO): The SSO represents the institutional memory of the Network of Agencies and serves as a communication and connection hub between the EU institutions and the EUAN members. With respect to the sharing of reserve lists, the SSO keeps the list of participating Agencies up to date, hosts the IT tool, as well as reports using the agreed KPIs on the sharing of reserve lists.

Personal data⁵: Any information relating to an identified or identifiable natural person ('data subject').

5. COMMON PRINCIPLES

Common principles for sharing reserve lists under the MoU are:

Clarity: A clear commonly agreed procedure for sharing and using shared reserve lists is established for all participating Agencies.

Data security, privacy and confidentiality: Safeguards are embedded by all participating Agencies in their selection procedures to protect candidates' personal data, in accordance with Regulation (EU) 2018/1725. Participating Agencies commit to ensure the same level of confidentiality of personal data when sharing reserve lists.

Reciprocity: All participating Agencies will share lists of suitable candidates according to this framework and benefit from access to shared reserve lists. Participating Agencies will further support each other, e.g. by receiving Agencies participating in selection boards upon request by the leading Agency.

6. COMMON PROCEDURE FOR SHARING RESERVE LISTS

The participating Agencies decide which of their selection procedures fall under the scope of this MoU and for which they will operate as leading Agency.

⁵ According to Regulation (EU) 2018/1725 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and the free movement of such data (OJ L 295, 21.11.2018, p. 39–98).

For the selection procedures falling under the scope of this MoU, the participating Agencies agree to the following common procedure:

6.1. Including relevant Vacancy notice's provisions

The leading Agencies shall include in their vacancy notice all the following provisions/information to candidates:

- the nature of the selection, i.e. a selection procedure to fill one or more similar positions and constitute a reserve list of suitable candidates.
- the list of participating Agencies at the time of publication of the vacancy notice.
- that the reserve list resulting from the selection may be used '*by other Agency/Agencies only if needed in the future*'.
- if included in the reserve list, and upon consent, that candidates' personal data may be shared with the receiving Agencies that are interested to use the reserve list for further recruitment purposes.

The information that the leading Agency shall include in the vacancy notice regarding personal data is available in Annex I.

Only those participating Agencies that are listed in a vacancy notice can use the relevant reserve list to meet their recruitment needs under this MoU. If an agency signs the MoU after the publication of the vacancy notice, it will not be able to use the resulting reserve list. Being listed in a vacancy notice does not imply that a participating Agency will make use of the shared reserve list.

The list of participating Agencies, i.e. the Agencies who have signed this MoU, is maintained up to date by the SSO and is available at any time in the common IT tool for sharing reserve lists.

6.2. Meeting the leading Agency's staff needs

Before making a reserve list available to other Agencies, the leading Agency has the prerogative to fulfil its own staffing needs first, ensuring that vacant post(s) in the leading Agency are filled first with successful candidate(s) from its own reserve list.

Once shared, the entire reserve lists shall be made available to participating Agencies (with the exception of candidates who have already been recruited by the leading Agency), i.e. the leading Agency cannot 'reserve' candidates for their future use.

6.3. Sharing information about the established reserve lists

The leading Agency shares general information related to the reserve list with all participating Agencies exclusively through a designated IT tool.

This general information includes:

- the vacancy notice;
- the total number of suitable candidates on the reserve list;
- the validity period of the reserve list (see Article 8 of the MoU);
- the leading Agency's contact point (name and email address).

No personal data of candidates in the reserve lists is disclosed in the IT tool.

6.4. Expressing interest in a reserve list

Participating Agencies express their interest in a specific reserve list by sending an email to the leading Agency's contact point.

Only participating Agencies explicitly listed in the relevant vacancy notice may express interest to use a shared reserve list.

6.5. Seeking consent from suitable candidates

Before sharing the personal data of the suitable candidates on the reserve list with the receiving Agency, the leading Agency shall, each time the list is to be shared, seek the consent of the candidates, while providing information to them on the interested receiving Agency. (See Annex II for the Data Protection Notice to be shared with candidates when seeking their consent)

Only the personal data of those suitable candidates who have given their explicit consent shall be shared with the receiving Agency.

In case several receiving Agencies request access to a reserve list, candidates will decide with which Agencies their personal data shall be shared.

6.6. Sharing information with the receiving Agency

The leading Agency shall use a secure solution of its choice, complying with the data protection principles, to share the personal data of the candidates on the reserve list who have given their consent (see step above).

The personal data to be shared is limited to:

- the contact details of the candidate;
- the application form and/or CV, as available.

6.7. Use of the reserve list by the receiving Agency

The use of a reserve list by the receiving Agency shall only be for positions of a similar nature and profile as the one described in the vacancy notice.

The receiving Agency shall share with interested candidates information about:

- the vacant position and role;
- its own selection procedures/recruitment guidelines;
- personal data protection in selection/recruitment procedures.

The receiving Agency shall proceed with the selection of interested candidates from the shared reserve list, based on the needs of the service, and adhering to its own selection/recruitment procedures/practices.

The type of post and grade to be offered by the receiving Agency to the successful candidate shall be that of the vacancy notice.

6.8. Informing the leading Agency

Should a receiving Agency select a suitable candidate from the reserve list, it will inform the leading Agency as soon as the candidate accepts the job offer, by sending an email to the dedicated contact person in the leading Agency. The leading Agency will remove the candidate from the reserve list and inform the participating Agencies by updating the relevant information in the IT tool.

If the job offer is withdrawn or if the candidate finally decides not to accept the job offer, the receiving Agency will immediately inform the leading Agency so that the candidate is placed back on the reserve list. The leading Agency will inform the participating Agencies subsequently, by updating the relevant information in the IT tool.

Upon recruitment by the receiving Agency, the leading Agency is informed, and the latter definitely removes the candidate from the reserve list.

6.9 Update of the reserve list and relevant information in the IT tool

The receiving Agency shall inform the leading Agency as soon as a job offer is accepted, of any withdrawal of a job offer and job acceptance.

The leading Agency is responsible for:

- keeping the general information (i.e. number of candidates on the shared reserve list) up to date in the IT tool at all times, and until the end of the validity period of the reserve list;
- informing candidates when they are removed from the reserve list, following their acceptance of a job offer in a receiving Agency;
- informing any receiving Agency having started using a reserve list when candidates are removed from the list following their acceptance of a job offer in another receiving Agency.

6.10. Closure or cancellation of a reserve list

A leading Agency has the prerogative to withdraw a shared reserve list from the IT tool at any point. No justification is needed.

The leading Agency will immediately inform all other participating Agencies in case a reserve list is to be closed or cancelled, for imperative reasons, before the period of validity expires (see Article 8) by updating the information available in the IT tool. No justification is needed.

However, if a receiving Agency has already expressed interest in the reserve list or has started the selection process for using the reserve list, for reasons of transparency and legal certainty, the leading Agency shall inform the receiving Agency of the reasons for the closure, cancellation or withdrawal of the reserve list. Having all relevant information at its disposal, the receiving Agency has the prerogative to decide whether or not to complete its selection and recruitment process. In consultation with the leading Agency, the receiving Agency may also use this information to comply with its obligation to provide reasons and to motivate a decision towards the candidate(s) who already entered recruitment process.

7. TRANSPARENCY AND COMMUNICATION

Among participating Agencies

General information regarding the shared reserve list (job title, number of suitable candidates, etc.) will be communicated to participating Agencies using the designated IT tool.

Leading Agencies should ensure that information in the IT tool is kept up to date at all times. This includes providing in the IT tool the data necessary to monitor the performance of the shared service (per reserve list: number of receiving Agencies; total successful offers from reserve list).

When sharing a reserve list, the leading Agency must promptly notify receiving Agencies of any changes to established reserve lists (removal of a candidate following a job offer or recruitment; withdrawal of a candidate on their own initiative from the reserve list).

Towards applicants

Each participating Agency shall ensure transparency by updating their internal rules and Data Protection Notices on selection/recruitment, as well as their guidelines to applicants and any other publicly available information on selection procedures to include information to applicants about the potential use of shared reserve lists according to the terms of this MoU, i.e.:

- The participating Agency may use shared reserve lists from other participating Agencies or Joint undertakings of the EUAN to fill vacant positions;
- The relevant vacancy notices are published by participating Agencies and Joint Undertakings in the EUAN job portal, job opportunities section (incl. the relevant link to the portal);
- Invite applicants to check regularly the EUAN job portal for job opportunities in the Agencies and Joint Undertakings that signed the present MoU.

In addition, the leading Agency shall ensure publication of all vacancy notices falling under the scope of this MoU in the EUAN website, job opportunities section.

8. VALIDITY OF SHARED RESERVE LISTS

To maximise the availability of shared reserve lists, participating Agencies shall foresee a minimum validity period of two years for their reserve lists after the reserve list has been established.

Each leading Agency is responsible for extending (or not) the period of validity of its own reserve lists. This involves adhering to their own internal procedures for updating the reserve list of suitable candidates as relevant and necessary. This also includes removing candidates who have accepted a job offer or have been recruited by another participating Agency following the use of the shared reserve list.

9. DATA SHARING AND DATA PROTECTION

Each participating Agency will ensure secured storage and sharing of personal data.

Following explicit consent from candidates in the shared reserve list, the leading Agency will only share with the receiving Agency the following candidate's data (see also Annex I):

- contact details;
- application form and/or CV, as available.

Such data shall be processed solely for the purpose of the implementation of the present MoU by authorised personnel from the participating Agencies (acting as leading and/or receiving Agency).

Annex I contains relevant provisions for this specific processing of personal data, such as the description and purpose of the processing, the categories of personal data and data subjects, the obligations and rights of the parties to the present MoU.

Annex II provides a specific Data Protection Notice to be used when seeking the consent of a candidate for sharing their personal data with receiving Agencies.

All clauses on data protection included in this MoU are applicable to all participating Agencies. Participating agencies shall update their relevant records of processing operations according to the terms of this MoU.

10. SUPPORT TO THE IMPLEMENTATION OF THE MoU BY THE SSO

The SSO is responsible for:

- Assisting and advising to support the proper implementation of this MoU by all participating Agencies;
- Hosting the IT tool on the EUAN MS Teams space and assisting with the use of the IT tool by participating Agencies;
- Keeping up to date the list of participating agencies in the IT tool;
- Contacting the participating Agencies on a quarterly basis to remind them that the information in the IT tool shall be kept up to date;
- Reporting on the implementation of the shared service using KPI commonly agreed by Agencies.

In performing its role, the SSO shall not have access to or process any personal data.

11. INTERNAL RULES AND PROCEDURES FOR SELECTION AND RECRUITMENT

This MoU acknowledges that each Agency is subject to its own internal rules governing recruitment/selection procedures.

Participating Agencies shall, however, update their internal rules on selection procedures and relevant guidelines to candidates to ensure transparency and equal treatment when publishing vacancies for establishing shared reserve lists and when using shared reserve lists from other Agencies for recruitment purposes.

12. CONFIDENTIALITY

The Agencies shall treat with strict confidentiality any information, documents and data provided and shared within the framework of this MoU and identified as confidential, unless their disclosure is required under EU law or national law of a Member State.

Participating Agencies undertake not to disclose any information to third parties without the prior consent of the leading Agency and to use the information solely for fulfilling the purpose of the present MoU. In particular, the receiving Agency undertakes not to disclose any information, documents and data provided by the leading Agency in relation to the candidates on the shared reserve list. The receiving Agency shall ensure the protection of such data at the same level as their own confidential information, and in any event not less than with reasonable care.

The confidentiality obligations set out in this Article are binding to all participating Agencies for as long as the information or documents retain a confidential character, unless the applicable law requires disclosure of confidential information or documents.

Participating Agencies will adhere to the confidentiality and data protection provisions outlined in Annex I.

13. TERM, AMENDMENTS AND TERMINATION

This MoU shall become effective upon signature by each participating Agency.

Any of the participating Agencies may withdraw from this MoU at any time upon giving thirty (30) days written notice to all other participating Agencies to this MoU.

The withdrawal takes effect after 30 calendar days, or after the receiving agency completes any ongoing selection and recruitment process using a shared reserve list, whichever is later.

This MoU, including Annex I and Annex II which form an integral part of the MoU, may be amended at any time by written agreement with the consent of all the Agencies that have signed it.

14. TRANSITIONAL PERIOD

This MoU does not foresee any transitional period.

Vacancy notices, and resulting reserve lists, issued prior to the entry into force of the MoU do not fall under its scope.

15. ENTIRE AGREEMENT

This MoU including its annexes constitutes the entire agreement between the participating Agencies with respect to the subject matter.

- ☐ I hereby declare that internal guideline(s) to applicants, data protection notice(s) and other publicly available information on selection/recruitment procedures have been updated in line with the provisions of this MoU.

The Joint Controllers collect and process personal data pursuant to Regulation (EU) 2018/1725².

One of the data subject rights under this Regulation is that the data subject is informed when their personal data - also known as personal information - is processed (collected, used, stored, etc.) by any of the EU institutions, bodies or agencies. Data subjects also have the right to know the details and purpose of that processing.

Within this privacy statement, the data subjects will find information about the processing of personal data in the context of 'sharing reserve lists' among the EU Agencies and Joint Undertakings acting jointly as Joint Controllers³.
