

Think rail – think global

Peter MIHM, Team leader

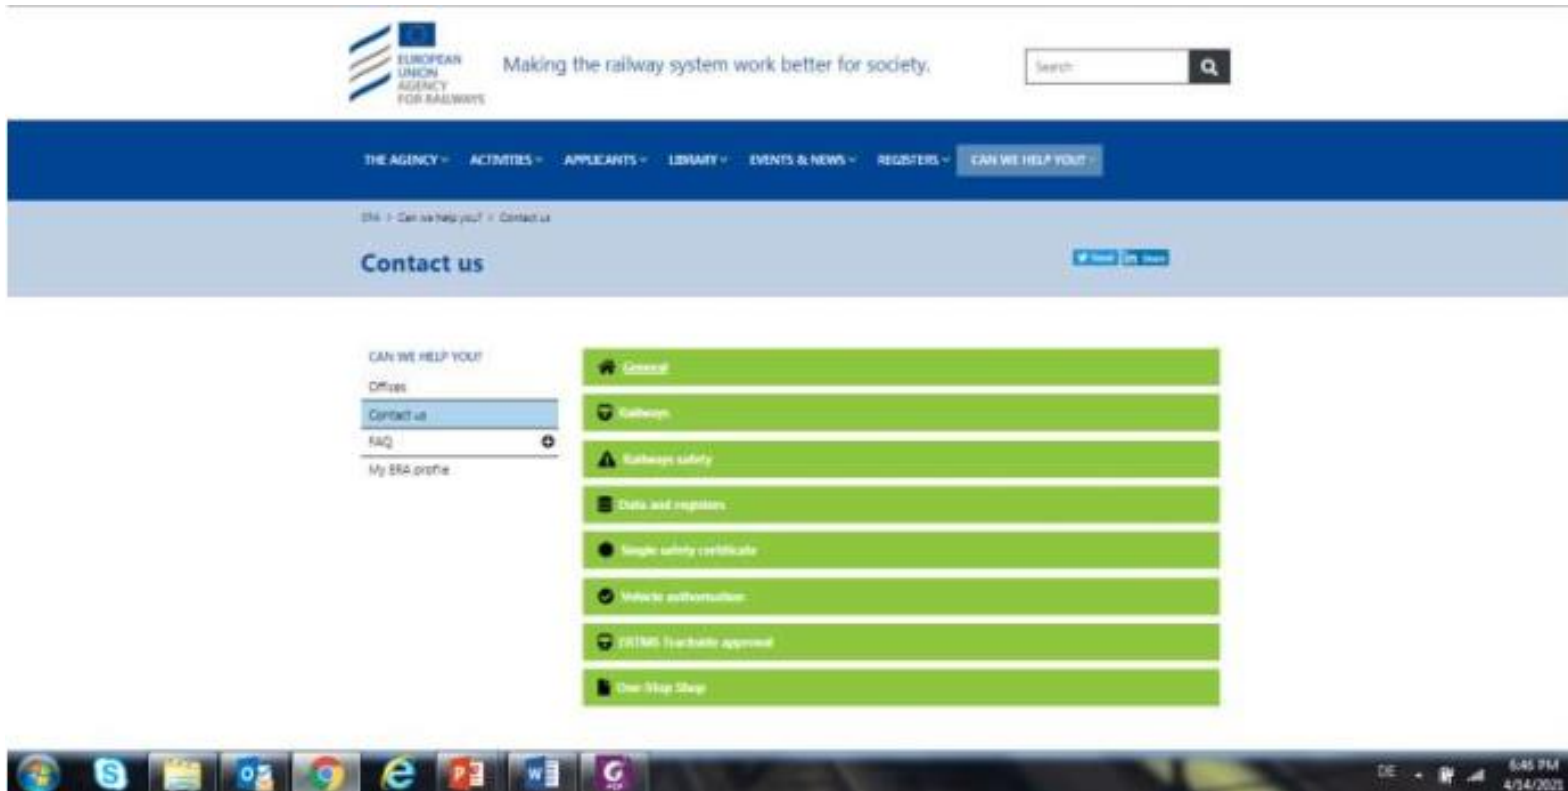

Partnerships

- AdAR with OTIF
- MoU with OSJD
- MoU with FRA (Federal Railroad Administration)
- MoU with ANTT (Landtransport Agency of Brazil)
- MoU with GCC (Gulf Cooperation Council)
- MoU with TC permanent secretariat
- MoU with UIC
-

Why Think Global?

- European Union Agency, the leading agency for railway safety
- The laws of physics are Global
- Trade is Global
- Competition is Global
- There are more track-km of ETCS outside the EU than inside the EU
- Trade Agreements require to respect International Standards
- Common challenges and objectives e.g. climate, environment, COVID ...

- Thank you for your attention

The screenshot shows the website of the European Union Agency for Railways. At the top left is the agency's logo and the tagline "Making the railway system work better for society." To the right is a search bar. Below the header is a navigation menu with items: "THE AGENCY", "ACTIVITIES", "APPLICANTS", "LIBRARY", "EVENTS & NEWS", "REGISTERS", and "CAN WE HELP YOU?". The "CAN WE HELP YOU?" menu is expanded, showing a sub-menu with "Contact us" (highlighted), "FAQ", and "My ERA profile". To the right of this sub-menu is a vertical list of service categories: "General", "Guidance", "Certificates safety", "Data and registers", "Single safety certificate", "Vehicle authorisation", "TIRMS (technical approval)", and "One-Stop Shop". At the bottom of the screenshot, a Windows taskbar is visible with various application icons and a system tray showing the date and time as 4/14/2023, 6:45 PM.

Making the railway system work better for society.
