Business development

- Founded by DB in 2000
- Starting business as sidings operator
- License for traction operations received in 2004
- First traction services started in 2004
- Significant investments in wagons and locos

Main activities

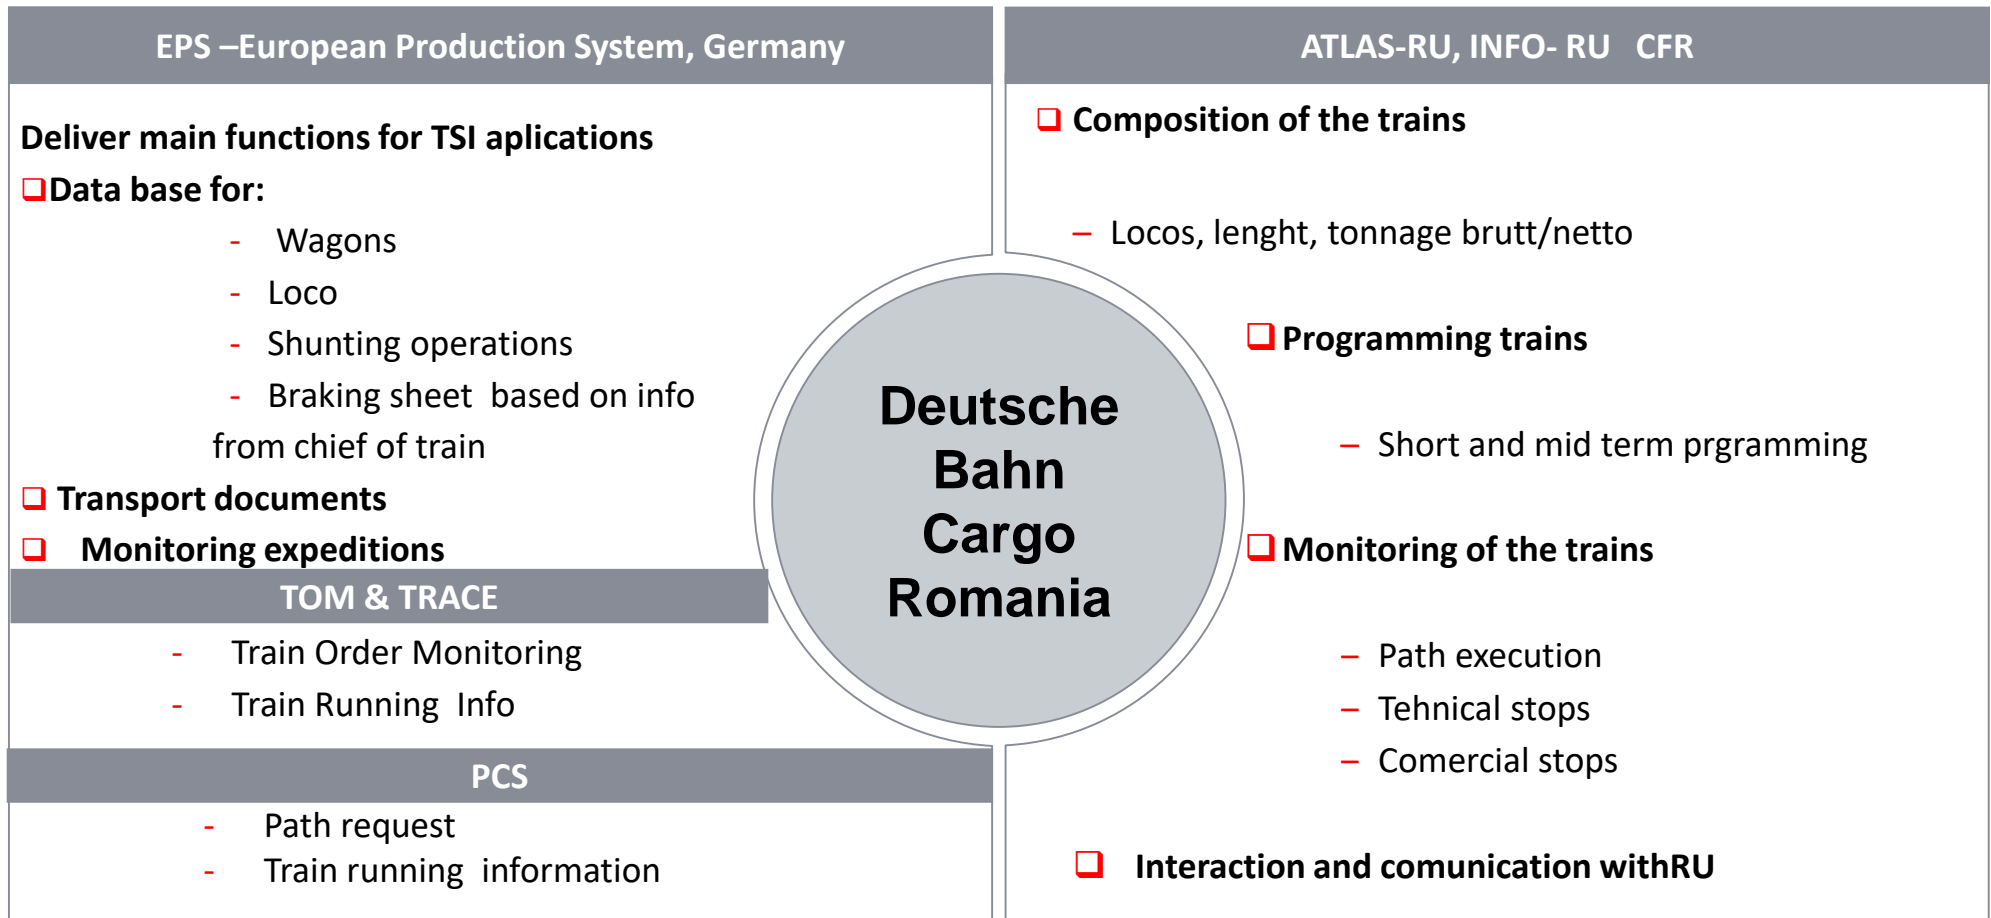

- Rail freight transport services of various goods using own locomotives, wagons and staff
- Shunting services using own locomotives and staff
- Infrastructure management
- Management of owned and private wagons/ maintenance and repair

WE are a premium rail freight operator, reliable for our customers, economically successful, safe for our employees and environmental friendly.

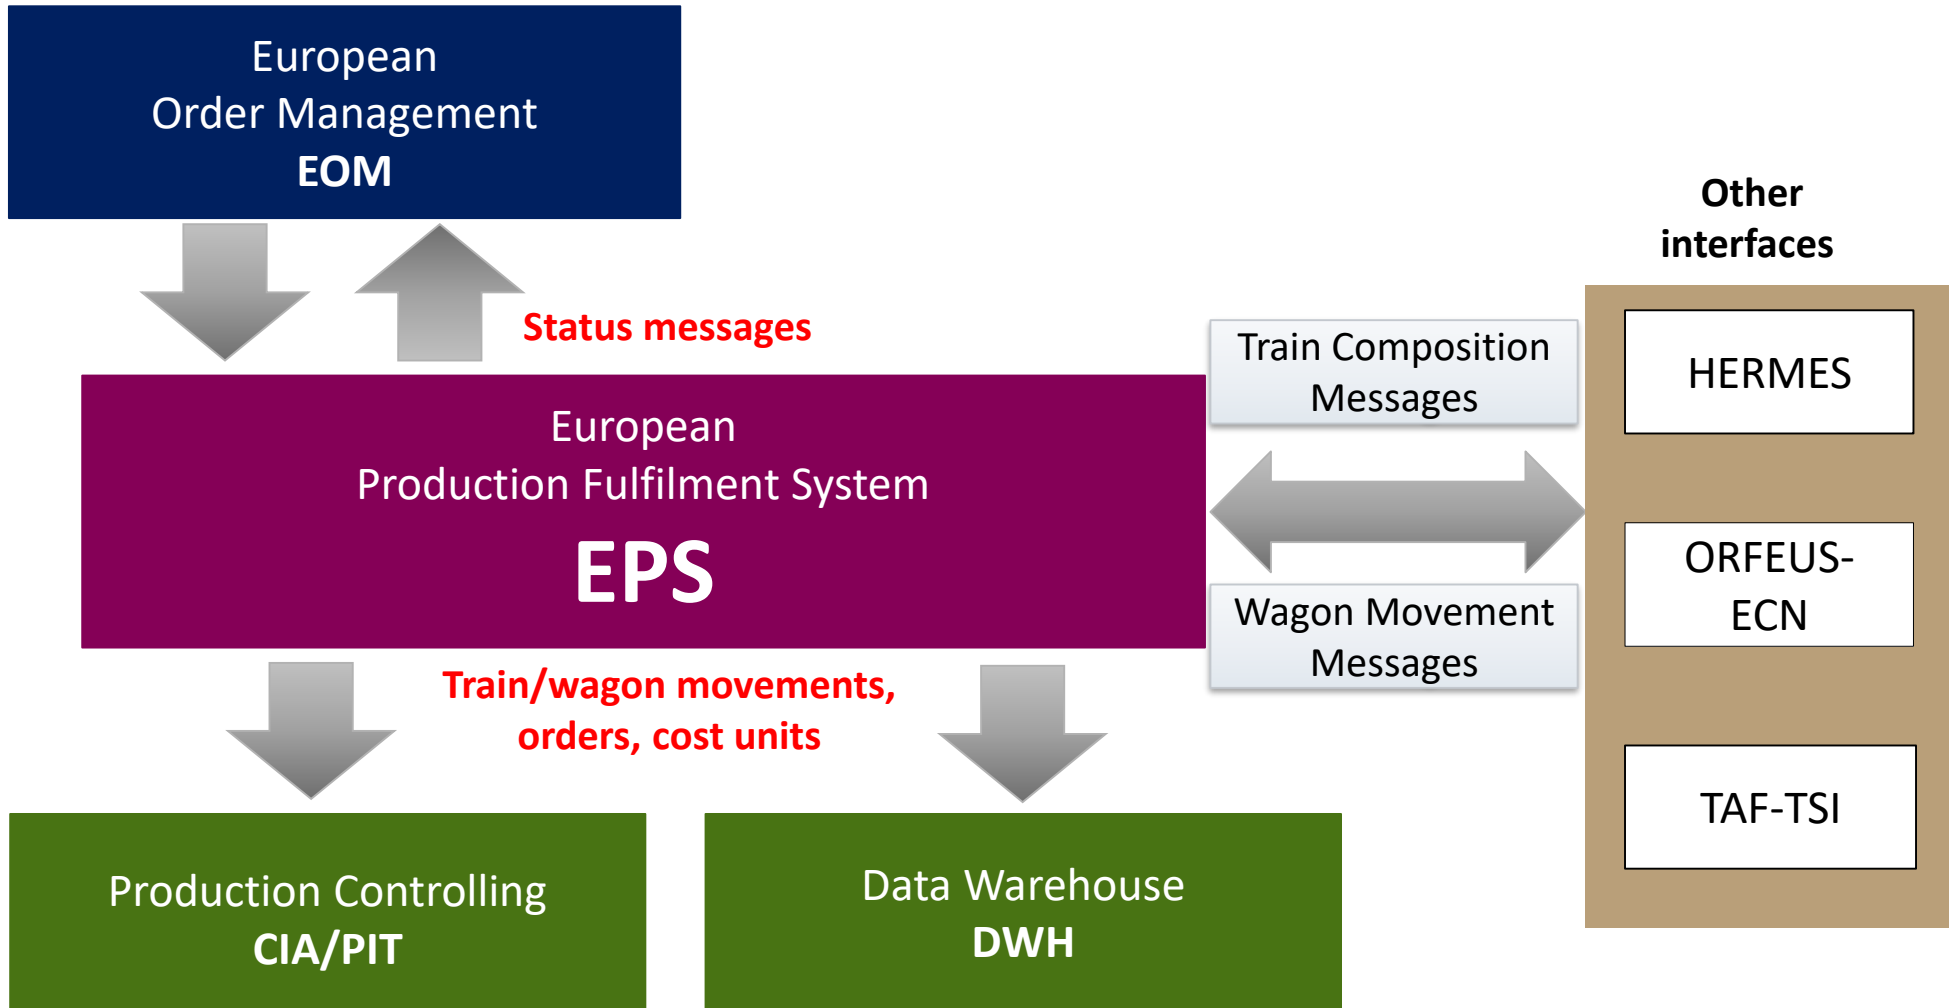

DB Cargo Romania TAF TSI components Infrastructure Manager System

DB Cargo Romania follows DB Cargo Group strategy

Integration of EPS in the DBCR system landscape

Overview of interfaces

The diagram features a central square image of several hands of different skin tones stacked on top of each other, symbolizing teamwork or a common goal. To the left of this image is a large, hollow arrow pointing right, containing the text 'Interfacing between all soft related to TAF TSI'. To the right of the image is a large, hollow arrow pointing left, containing the text 'A standard Soft for general understanding'. The arrows and central image are horizontally aligned.

**Interfacing between
all soft related to TAF TSI**

**A standard Soft for
general understanding**
