

ERTMS – Deployment Action Plan

Michel Van Liefferinge
UNISIG General Manager

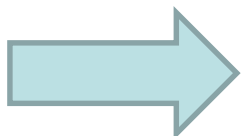

SERA Conference - 20 June 2017

ERTMS – Deployment Action Plan

Background

■ ERTMS State of Play and key milestones 2016/2017

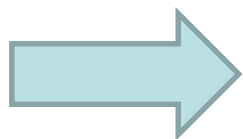

- 4500 km of lines and 7000 vehicles equipped or contracted
- Mature specifications Baseline 3 Release 2 together with a maintenance process
- 2016 ERTMS MOU engages the Sector with two main principles:
 - ✓ Stability
 - ✓ Managed evolution
- Updated ERTMS European Deployment Plan – clear deployment targets until 2023

UNIFE and UNISIG, as signatories of the ERTMS MOU, welcome a concrete plan to support the EDP

ERTMS – Deployment Action Plan

- **The 4th Railway Package includes ERTMS related actions:**
 - ✓ Vehicle authorization process
 - ✓ ERA approval of the ERTMS trackside
- **UNIFE and UNISIG proposed to ERA and DGMove a set of actions embedded in EDP action plan**
- **The success of the action plan needs a close collaboration of all actors: Suppliers – IMs – Operators – Member States – ERA – DGMove**

**UNIFE and UNISIG recommend a
quartely follow-up of the plan, under
the umbrella of the ERTMS
Stakeholders Platform**

UNIFE – Promote rail market growth for sustainable mobility
