Test case 2.0.0.0.6.0.2.0.2.0.0.0.1.0.0.1.1

TEST CASE HEADER	
Test case Identification	Application Start Up
	The ETCS mode is NL or SL. The STM Control Function version is compatible with the STM. There is no failure in the opening of the communications. ETCS orders CO State, the STM switches to CO State and then requests to go to the CS State.
